RECORD REVIEW

Criminal History records include arrests and convictions on a State or Federal level. All individuals legally residing in the United States have the right to request a copy of their own criminal history record. An individual requesting to review their own records cannot use the information provided to fulfill the requirements for employment, entry into an educational program/institution, or for obtaining a license/certification. The typical reasons these records are requested is for immigration, international adoption or travel, or to confirm the information is accurate and complete.

If you are unsure of the level and/or type of background check you need, please refer to the appropriate government agency or requesting entity.
